It has been stated that the double code letters were used for a second printing in the month. This would be unlikely since the doubled letters occur only in January, February, and March for 1945, 1946, 1948 and 1949. Additionally the same font is used for both the single and double letters in 1945, while in 1946, 1948 and 1949 the font for the double letters is different than that used for the single letters. Any other double codes are **WANTED!**
